**SUMMARY** Over 170 race days in the last two years, actively competing on boats ranging from my 505 to a Santa Cruz 70. My goals for 2014 are to continue to improve my trimming and tactical skills, especially in one-design racing, as well as participating in offshore races.

**PREFERRED POSITIONS** The majority of my keelboat experience is in the positions of jib trimmer, trimming symmetric or asymmetric spinnakers, and foredeck with asymmetric kites. I am competent in other places and always looking to learn more.
